

K-Class Benchmark in technology and design

The Open World of Finest Weighing Solutions. Since 1866.

Our experience sets standards

We are a family-owned company guided by a commitment to tradition, sustainability and responsibility. Nowadays, based on our core competence of slicing and weighing technology, we offer our customers the industry's largest and most unique range of products and solutions as hardware, software and services, anywhere in the world.

As a globally operating technology company we are guided by our goal and commitment to achieve maximum results in terms of ergonomic design, hygiene, safety and efficiency. We believe we have a role to play in shaping our markets, and are continually setting new industry standards.

In close collaboration with our customers and against a backdrop of technological advancement, we are working to improve our products on a daily basis - resulting in innovations which become new standards.

In order to continue to live up to these requirements, we focus on the highest possible quality standards and internationally recognized technology standards in our development and manufacturing work. This is how we best support our customers in achieving maximum efficiency and profitable growth.

Our experience sets standards.
That's what sets us apart. Bizerba

Efficiency and investment security

With the K-Class, we have not only developed a visually impressive scale which achieves the perfect combination of design and functionality.

By using high-quality materials in such an aesthetically pleasing and ergonomic way, we have once again set standards – just as we do by consistently applying the principles of open weighing technology.

As one of the most powerful touchscreen scales in the world, the K-Class represents the pinnacle of efficient use of technology as well as long-term investment security.

The K-Class brings together all essential retail tasks – weighing, transactions, promotions, printing, advising – it's all possible. And everything is done so smoothly and reliably that it is hard to imagine a more satisfactory tool for daily operations.

Based on a uniform, modular design and available in a wide range of different models and options, the K-Class is a prime example of technical feasibility meeting economic sense.

K-Class KH II 800

Easy Clean

- Frameless display
- Structured housing surface
- Very easy to clean
- Insensitive to dirt, fingerprints, labels and traces of use
- Long-lasting flawless appearance

Green IT

- High performance at low level of power consumption (no fan)
- Economical components (SSD, LED backlit)
- High efficiency power supply unit
- Wake on Lan

Inner values

- Modern Intel® Dual Core processor
- Fast SSD memories, DDR3 RAM
- Fast graphics
- High speed interfaces

Easy Load

- Quick and easy inserting of paper on receipt / linerless printer
- Paper width up to 80 mm, roll length up to 80 m, print speed up to 150 mm/s
- Printing of label layouts on pre-printed linerless paper

Software*

- Platform for:
- RetailPowerScale
 - RetailFramework
 - RetailApps
 - RetailIntegratorsKit

Easy Level*

- Recognition of angled scale position
- Automatic weight value correction
- No loss in sales due to inclined scale

The K-Class touchscreen scale is the yardstick for the service counter. It is a key step towards intelligent technology, which takes care of standard activities and hence noticeably lightens a sales employee's workload: it automatically improves the competence and performance of the person behind the counter.

Thanks to the software on the inside, the devices can be customized to handle an immense range of tasks. And that is precisely the aim of Bizerba's engineers: to develop solutions which go a step further than all the others - solutions which deliver convincing performance and are remarkably simple to work with. Technology which is hygienically clean, ensures maximum safety and yet has extremely low requirements in terms of electricity, care and maintenance.

* optional

The fruits of our labor

Easy Clean

To help you save time and money when cleaning the K-Class we have used dirt-resistant, extremely stable and anti-corrosion surfaces. They comply with the strictest international hygiene requirements. Stray labels and stubborn residues can be removed from the innovative surface easily and problem-free.

Customer and operator display are seamlessly integrated in the housing to form a completely smooth transition between housing and screen. Otherwise hard-to-remove dirt can no longer accumulate here. As a result, the Easy Clean displays not only look particularly stylish but also offer a number of important practical benefits.

Inner values

The integration of a computer with a special high-performance Intel® processor proves that these systems should not be called just scales, but PCs with weighing function. The Bizerba RetailPowerScale software transforms the IT-supported weighing system into a digital, multifunctional workstation. Thanks to its numerous interfaces, the K-Class is easy to integrate into your IT network and device landscape.

RetailPowerScale software

RetailPowerScale provides the all-in-one solution for the retail trade. Whether a scale is used by specialty food stores or top 100 retailers – RetailPowerScale is the key to turn your PC scale into a multifunctional device. Additional functions are easily and quickly available via modular RetailApps. Highly scalable in the required functionality, adaptable to the last detail in the layout. Individuality is combined with the advantages of standard software which seamlessly integrates in existing IT infrastructure.

Lower operating costs while increasing sales: RetailPowerScale makes it possible. The sophisticated use of operator display and a customer display which can be separately addressed opens up new opportunities in sales at the point of service.

RetailApps

RetailApps are true masters in flexibility, adapting to meet specific market requirements. They are separate, self-contained solutions that are easily docked on to the scale software RetailPowerScale via standardized interfaces. The advantages are clear: less development time, lower costs and investment protection thanks to care and maintenance. Existing RetailApps such as EasyOrder and IngredientManager are immediately available and ready for operation and their solution portfolio is growing constantly.

Easy Level

Easy Level is an automatic tilt compensation eliminating weighing errors. These can otherwise be commonplace, such as when the scale is in mobile use or is placed on an un-level surface. Thanks to the Easy Level technology, the tilt angle is measured and compensated automatically, thus guaranteeing that the correct weight value is displayed. Conclusion: A correct weight despite tilt means no loss of revenue.

Easy Load

A printer that really does its name justice – because although it can handle virtually all standard types of paper, the rolls can be exchanged amazingly quickly. Whether two or three inch rolls, with a paper width of up to 80 millimeters for receipt operation or linerless paper and label operation – everything is possible and saves valuable time thanks to convenient operation. Plus the double printer allows the customer to use different types of paper simultaneously.

Black or White

Our K-Class: Well-balanced model offering maximum performance. Attractive appearance, technically brilliant functions. In timeless white or exclusive black. One more possibility to integrate your Bizerba scale in your design concept in an individual and harmonious manner. Pick the color of your choice!

Discover new perspectives

With Augmented Reality (AR) this brochure offers you additional digital information on the Bizerba product which you will get to know from all perspectives on the following pages. Merging print and digital medium makes it possible. And this is how it works:

Load our free Bizerba AR app from the App store (Apple) or Play-Store (Google). The download works even faster via scan.

Apple devices

Android devices

Open and use the app wherever you see the Bizerba AR logo.

BIZERBA

Point the camera of your smartphone or tablet* at the AR logo.

BIZERBA

*The Bizerba app is optimized for the latest smartphone and tablet generations. Older devices with a less powerful processor could have problems to display the AR contents.

KH II 800 12,1"

KH II 800 12,1"

Highlights

- Countertop scale, ideally suitable for assisted sales in the fresh food area
- Easy Clean for quick and easy cleaning of the scale
 - Surface: problem-free removal of stray labels
 - Displays: frameless for ease of cleaning
 - Load platter: optimum ease of handling
- Easy Load enables paper rolls to be changed in a matter of seconds
 - Combi-printer with receipt and linerless operation up to 80 mm paper roll widths
 - Additional label layout possible on preprinted linerless paper
- Label and dual printer
- Easy Level tilt compensation
 - Accurate weighing results even when the scale is not leveled, no loss of revenue
- High-end PC scale with outstanding Intel® Dual Core processor for optimum performance and perfect graphics with minimum power consumption
- Wake on LAN for more energy efficiency

Options

- Easy Level tilt compensation
- Dual printer
- Various weighing ranges
- Additional COM interface in conjunction with interface for cash drawer
- Cash register drawer
- WLAN
- Audio kit (internal speaker)
- High-end Bizerba software package
- RetailPowerScale scale software
- RetailApps for additional functionality
- RetailFramework
- RetailIntegratorsKit (RIK) for 3rd-party software

Perfect integration

The freedom to combine components, network functions and work ergonomically even in tight spaces: This is what our Flex solutions are capable of. Integrate the scale together with a slicer in your store concept. Gain more freedom thanks to unhindered access to the sales counter. Benefit from the multifunctionality to slice, weigh, provide service, label products, handle transactions or provide information. Also in the self-service area. In our opinion, that's the definition of perfect integration.

- White

Dimensions

GSP H Flex

Highlights

- Metrologically approved combination of integrated PC scale K-Class Flex II and vertical slicer GSP H
- Multifunctional use:
 - Slicing, weighing, transactions, inventory, data maintenance, advising, informing, advertising/cross selling
- Flexible arrangement of components thanks to modular system
- Easy to integrate in sales counters
- VESA standard mounting system
- Efficient cleaning of all components
- Easy to change label rolls
- 40° angled blade and flexible carriage inclination (0°/18°/25°)
- Innovative blade cover: Intelligent quick-close system for easy assembly and disassembly
- Powerful Bizerba motor
- Numerous carriage versions available

Options

K-Class Flex II

- Customer display:
 - 12" or 7" LCD color display
- Printer versions:
 - Dual printer for 2" receipt and 2" linerless paper
 - Dual printer for 2" receipt and 3" label paper
 - Printer for 3" label paper
 - Printer for 3" receipt or linerless paper
 - 2" printer Linerless compact
 - Epson TM-T 70 II
- VGA interface
- WLAN

GSP H

- Exclusive Ceraclean® surface finish
- Excellent gliding properties
- Easy product guidance
- Rapid cleaning
- Dishwasher safe
- Individual equipment:
 - Blade: Ceraclean® blade, cheese blade, bread blade
 - Numerous carriage versions
 - Blade changing device
 - Blade cover
 - Product fixation device
 - Placement (rubber feet, lifting mechanism)
- Safety package:
 - Illumination: Visual display showing the current device mode
 - Automatic start/stop function via the slice thickness button

BIZERBA

VSC280 Flex

Highlights

- Metrologically approved combination of integrated PC scale K-Class Flex II and slicer VSC 280
- Multifunctional use:
 - Slicing, Weighing, Cashing, Inventory, Data management, Advising, Informing, Marketing/Cross Selling
- Flexible arrangement of components thanks to modular system
- Easy to integrate in sales counters
- VESA standard mounting system
- Low energy consumption thanks to high-end PC scale
- Efficient cleaning of all components
- Easy to change label rolls
- 10° blade angle: Optimum ergonomics, improved overall view
- Hygienic design:
 - One-piece machine housing and base plate
- High-quality Bizerba components and Ceraclean® surface
- Guided run-off of meat and product juices
- Removable, dishwasher-safe parts
- Large distance between blade and motor tower for easy cleaning by hand
- Innovative blade cover: Intelligent quick-close system for easy and safe assembly and disassembly
- Emotion®:
 - Intelligent drive technology
 - Reduced energy consumption
 - Zero energy consumption when switched off
 - Only minimal heat generated in the device and hence in the product
 - Very low noise level

Options

K-Class Flex II

- Customer display:
 - 12" LCD color display
 - 7" LCD color display
- Printer versions:
 - Dual printer for 2" receipt and 2" linerless paper
 - Dual printer for 2" receipt and 3" label paper
 - Printer for 3" label paper
 - Printer for 3" receipt or linerless paper
 - 2" printer Linerless compact
 - Epson TM-T 70 II
- Interfaces
- WLAN
- VGA

VSC280

- Individual equipment:
 - Blade: Ceraclean® blade, cheese blade (channeled), bread blade
 - Remnant holder: smooth, checked, with spikes
 - Carriage: one-piece, entirely made of aluminum or with transparent rear wall
 - Blade cover: open, closed
 - Product fixation device
- Installation: Rubber bars, feet

For top quality and reliable performance

In your day-to-day work with the K-Class, you can rely on high-quality cleaning products and original consumables in Bizerba quality. Everything is perfectly matched to your products ensuring the best possible results and longevity of your investments. A perfect example of teamwork with added benefits for you.

Cleaning agents

Optimal functioning and constant availability of your devices and machines requires professional care. Our high quality cleaning agents play an important role here since they are specifically developed for demanding conditions in retail, industry and food service. They are easy to use and show impressive results: perfect cleanliness providing protection as well as disinfecting hygiene for sensible components and smooth surfaces. For each material whether stainless steel, plastic or glass, we have a suitable cleaning agent in our comprehensive assortment. Clean solutions for your work area or production facility.

Quality labels

Many functions using minimal space: Labels are an indicator for price and ingredients and communicate with industry, trade and end customers via barcodes, QR codes, RF and RFID tags. As a key component of the packaging they fulfill important marketing functions with regard to corporate design, brand names and product marketing. Furthermore, as a production factor, they have an impact on costs and feasibility in the manufacturing process. Our quality labels offer almost unlimited possibilities: ranging from the ecological, high-quality linerless version and thermal-sensitive labels which conform with the Food Information Regulation up to multi-functional labels for product and brand protection. Also here we produce in an economical and innovative manner. Ask for more information about our labels.

Service redefined My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. No matter which modules you are combining for your solution: You benefit from costs which can be planned and efficient processes. And in best Bizerba quality.
