Mach™ 6

Coin sorter/counter

The Mach 6 is a fast, accurate and versatile coin sorter, configurable for tabletop or higher volume applications requiring bagging capability. Perfect for medium-size bank branches, retailers, transportation authorities and small casino operations, the Mach 6 significantly reduces the time required by your staff to count, sort and package coin.

By automating coin processing, you can release employees to focus on revenue generating and customer facing activities and reduce errors while simultaneously increasing their job satisfaction.

Ease of use

Utilising minimal counter or floor space, the Mach 6 can be accommodated into virtually any work environment. Its superior design offers functionality, efficiency and is ergonomically designed to enable fast processing of coin with minimal fatigue on the operator.

Coin authentication

With the addition of the coin authentication option, utilising patented WAVE™ sensor technology; the Mach 6 becomes the ideal machine to assist in the rejection of intrusive or counterfeit coins. Coin authentication increases accountability while maintaining the highest degree of accuracy.

Flexible

The Management Information Control System (MICS), included as standard, provides three levels of memory and allows other media – such as cheques, vouchers or rolled coin to be entered via the keypad. Notes can be entered manually or automatically transferred if a note counter is interfaced, ensuring a comprehensive audit trail.
